

Forget Password Flow

The image shows a login form for Meezan Bank. The form is titled "Login" and includes a security image selection section on the left with nine icons (car, glasses, lightbulb, cup, mouse, airplane, hard hat, telephone, alarm clock). The main section contains fields for Username (filled with "alikhan33") and Password (filled with "0158@-9752567"), a "Remember me" checkbox, and a "Forgot Login Details?" link. Below these are "Register" and "Login" buttons. A "Chat Support" icon is in the bottom right corner.

- No need to implement the functionality of "Register" , "Login"
- Only upon selecting "Forgot Login Details" route to the next component

The image shows a digital form for opening a Meezan Bank account. The form is titled "Select Account Type" and is part of a four-step process: 1. Account Type, 2. Account Details, 3. Verification, and 4. Login Details. The "Individual" tab is selected. Below the tabs, there is a text input field for the CNIC Number, currently showing "XXXXX-XXXXXXX-X". A note below the field says "Please enter your 13-digit CNIC Number". To the right of the input field, there is an image of a Pakistani National Identity Card (CNIC) with a callout box that says "Find your CNIC Identity Number. Permanent citizens of Pakistan can find their CNIC identity number on their Identity Card issued by NADRA." At the bottom of the form, there are "Back" and "Next" buttons. The Meezan Bank logo and name are at the top of the form. A "Chat Support" button is visible in the bottom right corner of the background image.

Instructions:

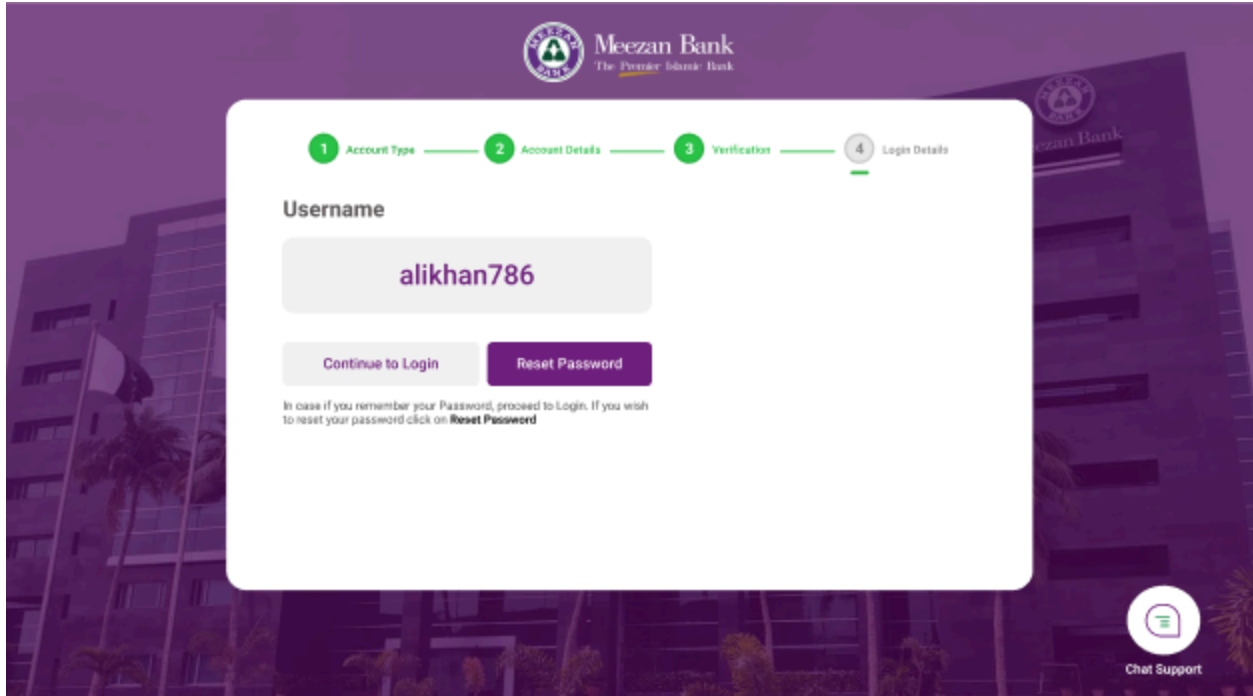

- Design the component for Individual account holder but the tabs should be changeable for example, on clicking Sole Proprietor / Credit Card / Smart Wallet or Foreign National the content below should change (No need to design it but it should display the active tab)
- Validations should be solid, in case of CNIC number it has to be 13 digits only and should not allow alphabets or any special characters.
- Upon entering CNIC like this "422011112154", it should automatically add dashes like "42201-1111215-4"
- On back button, it should go back to the previous component

The image shows a mobile app interface for Meezan Bank. At the top, the bank's logo and name "Meezan Bank The Premier Islamic Bank" are displayed. Below this is a progress bar with four steps: 1. Account Type (active), 2. Account Details, 3. Verification, and 4. Login Details. The main section is titled "Enter Account Details" and features two tabs: "Account Number" (selected) and "IBAN". Under the "Account Number" tab, there is a text input field containing "XXXXXX-XXXXXXX" and a label "Account Number". Below the input field is a hint: "Please enter your 14 digit Account Number". At the bottom of this section are "Back" and "Next" buttons. To the right, there is an illustration of a checkbook with a callout pointing to the "Account Number" field on a check. Below the illustration, it says "How to find your Account Number? The simplest way of finding your Account Number is to look for it on your cheque book." At the very bottom, there is a link "If you have registered already, please. Log in" and a "Chat Support" button.

Instructions:

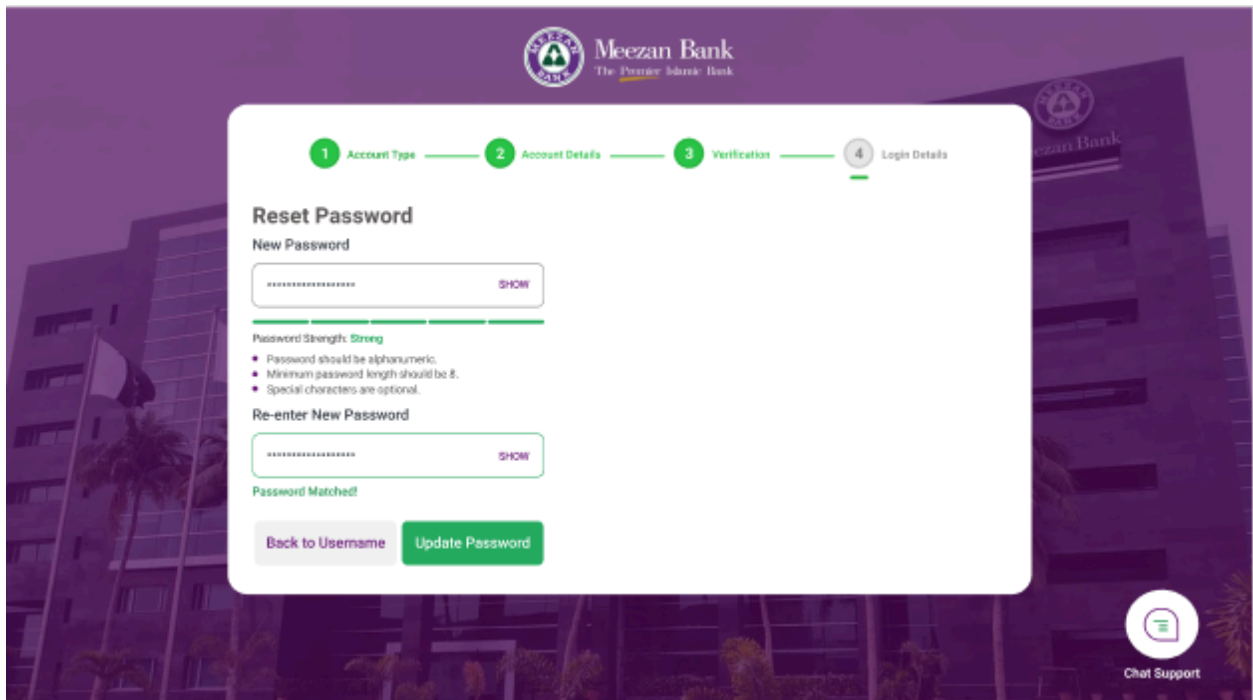

- Design the component for Account Number tab only but the tabs should be changeable for example, on clicking IBAN the content below should change (No need to design it but it should display the active tab)
- Validations should be solid, in case of Account number it has to be 14 digits only and should not allow alphabets or any special characters.
- On back button, it should go back to the previous component

The image shows the Meezan Bank login interface. At the top, the Meezan Bank logo and name are displayed. Below the logo, a progress bar indicates the current step: 1 Account Type, 2 Account Details, 3 Verification, and 4 Login Details. The main form area is titled "Username" and contains a text input field with the value "alikhhan786". Below the input field are two buttons: "Continue to Login" and "Reset Password". A small note below the buttons states: "In case if you remember your Password, proceed to Login. If you wish to reset your password click on **Reset Password**". In the bottom right corner, there is a "Chat Support" button with a speech bubble icon.

Instructions:

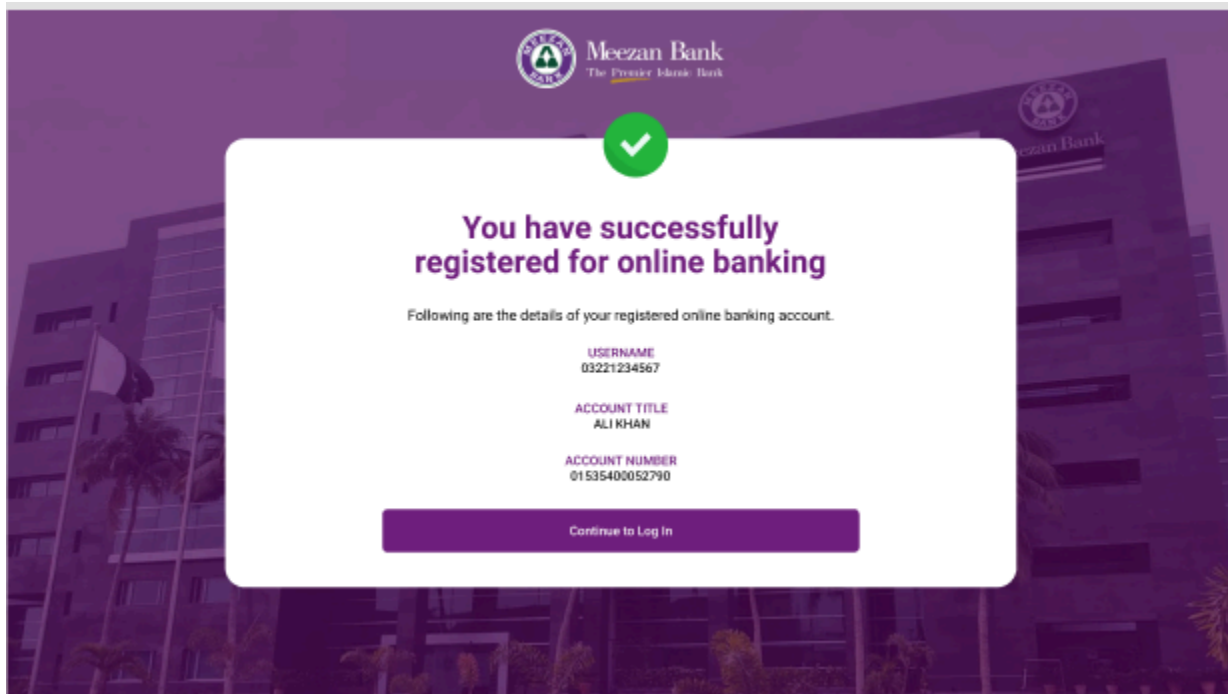

- Continue to Login button should route the user to login component
- Username is disabled and just read-only

The image shows the Meezan Bank reset password interface. At the top, the Meezan Bank logo and name are displayed. Below the logo, a progress bar indicates the current step: 1 Account Type, 2 Account Details, 3 Verification, and 4 Login Details. The main form area is titled "Reset Password" and contains a "New Password" section with a text input field and a "SHOW" button. Below the input field, a "Password Strength: Strong" indicator is shown, followed by three bullet points: "Password should be alphanumeric.", "Minimum password length should be 8.", and "Special characters are optional.". Below this is a "Re-enter New Password" section with a text input field and a "SHOW" button. A "Password Matched!" message is displayed below the re-enter field. At the bottom, there are two buttons: "Back to Username" and "Update Password". In the bottom right corner, there is a "Chat Support" button with a speech bubble icon.

Instructions:

- Password should comply to the instructions mentioned
- Password and Re-enter Password should be same
- On back button, it should go back to the previous component

Instructions:

- Remove Account Title label and value, and change “You have successfully registered for online banking” to “You have successfully changed your password”.
